

StudyPlanner

Developer Handoff

Complete specifications for development implementation.
8 specification documents · Desktop 1440 px · Last updated 22 Sep 2026

TABLE OF CONTENTS

STUDENT PLANNER

- Layout & Exact Measurements** — Page structure, grid, spacing
- Component Specifications** — Buttons, dialogs, reusable inventory
- Visual Tokens** — Colour palette, typography, radii, elevation
- Behaviour** — Interaction states, warnings, planning actions
- Assets** — Export manifest, formats, source node map

EXTENSIONS

- Summer Semester** — Layout, colours, typography, spacing
- Semester Ordering & Navigation** — Sequence: Sem 1 → Sem 2 → Summer

ADMIN

- Admin Portal** — Table, search, pagination, shared styles

Developer Quick Reference

Use this table to find the right specification document for each development task.

SECTION MAP

Developer Task	Refer To
Page structure, widths and spacing	01 Layout & Exact Measurements
Cards, buttons, dropdowns and modals	02 Component Specifications
Colours, typography and spacing tokens	03 Visual Tokens
Warnings and non-blocking interactions	04 Behaviour
Icons, logos and export names	05 Assets
Summer Semester implementation	06 Summer Semester
Semester 1 → Semester 2 → Summer flow	07 Ordering & Navigation
Admin table, controls and validation	08 Admin Portal

KEY IMPLEMENTATION NOTES

- Desktop reference width: 1440 px.
- Semester order: Semester 1 → Semester 2 → Summer.
- Co-requisite and eligibility warnings are non-blocking.
- "Continue Anyway" must remain available.
- "Go Back" returns the user without applying the attempted change.
- Do not invent behaviour where the approved designs mark it as undetermined.
- Reuse documented components and visual tokens before creating new styles.

Layout & exact measurements

Canonical 1440px desktop specifications measured from the seven approved source frames. Coordinates are frame-local.

Source frames

7 approved frames

Source frames

- Clear All Confirmation - 1440×1070 px
- Main StudyPlanner Summer Semester - 1440×1512 px
- Main StudyPlanner - 1440×1163 px
- Add Course Inline - 1440×1473 px
- Co-requisite Warning - 1440×1074 px
- Eligibility Warning - 1440×1070 px
- rmit-admin-page - 1440×1018 px

Planner shell

Global structure

Planner shell

- Page
 - Width: 1440 px
 - Background: #FAFAFA
 - Side margins: 64 px

 - Border radius: 4 px

Responsive scope

Desktop only

Responsive scope

Approved source is desktop-only at 1440 px. Preserve exact 64 px gutters, 24 px gap and equal 644 px columns. Tablet/mobile breakpoints are out of scope because no source states were supplied; do not invent breakpoints. Preserve content integrity with horizontal viewport scrolling until responsive designs are approved.

Component specifications

Reusable inventory and exact requested button/dialog measurements.

Clear All Plan button

Button

Clear All Plan button

Button

- Size: 130 × 41 px
- Padding: 12 px vertical, 20 px horizontal
- Gap: 0 px
- Border radius: 8 px
- Border: 1 px, #1A1A1A
- Background: #FFFFFF

Text

- Font: Inter Semi Bold
- Weight: 600

Interaction, warning & response behavior

Normative behavior. "Non-blocking" means the warning never prevents completion of the requested planning action.

Interaction states

Component behavior

Interaction states

- Default
- Use exact styles from component specifications.
- Hover
- Keep original colours.
 - Opacity: 90%
- Pressed
- Keep original colours.
 - Opacity: 80%
- Keyboard Focus
- Focus ring: 2 px
 - Colour: #000054
 - Offset: 2 px
 - Keep existing border.
- Disabled
- Opacity: 40%
 - Disable pointer interaction.
 - Disable keyboard activation.
- Loading
- Keep original component dimensions.
 - Replace leading icon with loading indicator.
- Expanded Add Course
- Trigger remains #E60028
 - Picker opens directly below.
 - Picker size: 596 × 354 px

Co-requisite warning trigger

Evaluation rule

Co-requisite warning trigger

- When to check
- Check the proposed plan before committing the change.
 - Check after a course is added or moved.
- Show warning when
- The required co-requisite is not in the same semester, OR
 - The required co-requisite is not in an accepted earlier semester.
- Warning message
- Clearly identify the missing co-requisite.

Co-requisite warning - NON-BLOCKING

Advisory behavior

Co-requisite warning - NON-BLOCKING

- Continue Anyway
- Always enabled.
 - Saves/commits the proposed change.
 - Closes the warning.
- Go Back
- Closes the warning.
 - Restores the previous unchanged plan.
- Escape Key
- Same behaviour as Go Back.
- After course changes
- Re-check the co-requisite condition.
 - Only show the warning again if the new action creates an unresolved co-requisite issue.
- Course Management
- Never automatically delete or rearrange unrelated courses.

Dialog response behavior

Modal behavior

Dialog response behavior

- When Open
- Background dim: 40%
 - Move keyboard focus to dialog title.
 - Trap Tab focus inside dialog.
 - Keep underlying page scroll position.
- Keyboard
- Primary action appears last in tab order.
 - Enter: activates the currently focused action.
 - Escape: follows the dialog's cancel/back behaviour.
- When Closed
- Return keyboard focus to the element that opened the dialog.
- Accessibility
- Dialog must include a name/description.
- Clear All Exception
- Clear All is a blocking/destructive action.
 - Courses are only removed after explicit confirmation.

Planning actions

Core actions

Planning actions

- Add Course
- Opens the inline course picker.
 - Selecting a course updates the semester.
 - Recalculates total credits.
- Remove Course
- Removes only the selected course.
 - Recalculates credits.
- Move to Next Semester
- Moves eligible course content to the next semester.
 - Recalculates credits.
- Download PDF
- Generates a PDF of the current study plan.
 - Does not modify the study plan.
- Clear All
- Opens a confirmation dialog.
 - Cancel: keeps the current plan unchanged.
 - Confirm: removes all planned courses and resets totals.

Responsive behavior

Desktop only

Responsive behavior

- Approved View
- Desktop: 1440 px
- Desktop Rules
- Preserve documented dimensions and spacing.
 - Preserve component order and layout.
- Tablet & Mobile
- Currently out of scope.
 - Do not collapse or reorder components.
 - Do not introduce unapproved responsive layouts.
- Future Responsive Designs
- Tablet/mobile behaviour should only be implemented after responsive designs are approved.

Asset manifest & export guidance

Implementation inventory for the seven approved screens.

Export package

Summer Semester specification

Dedicated Summer Semester layout, colours, typography, and spacing extracted from the approved "Main StudyPlanner Summer Semester" frame [1:1327].

Layout & dimensions

Summer semester layout

Source frame: "Main StudyPlanner Summer Semester" [1:1327] — 1440 × 1512 px

Summer semester column

Position: Below the Semester 1 + Semester 2 row, in a new row
Container: x: 64, y: 1002 (within semester-grid)
Size: 1312 × 325 px (spans full content width)
Corner radius: 16 px
Border: 1 px solid #E5E7EB
Background: #FFFFFF
Padding: 24 px all sides
Item spacing: 16 px vertical
Layout: VERTICAL auto-layout

Note: Unlike Semester 1 and Semester 2 which sit side-by-side (each 644 px wide with 24 px gap), the Summer column spans the full content width (1312 px) as a single row beneath them.

Semester grid (with Summer)

Total grid height: 1054 px (vs 705 px without Summer)
Padding: 64 px left/right, 8 px top, 16 px bottom
Row gap: 24 px (between year-1-row and Summer row)
Year-1-row: 1312 × 681 px (Semester 1 + Semester 2 side-by-side)
Summer row: 1312 × 325 px (full width below)

Exact hex values

Summer semester colours

All colours are identical to the standard semester columns — no Summer-specific palette.

Column background: #FFFFFF
Column border: #E5E7EB (1 px solid)
Title text "Summer Semester (Optional)": #1A1A1A
Total credits text: #6B7280
Divider line: #E5E7EB (1 px)
Empty state text: #6B7280
"Add Course" button background: #E60028
"Add Course" button text: #FFFFFF
"Move to Next Semester →" button background: #2E7D32
"Move to Next Semester →" button text: #FFFFFF

These colours are the same tokens used across Semester 1 and Semester 2. See Developer Specs — 03 Visual Tokens for the full colour inventory.

Font specifications

Summer semester typography

All typography uses Inter. Line heights are AUTO unless noted.

Title — "Summer Semester (Optional)"

Font: Inter Bold (weight 700)
Size: 18 px
Line height: AUTO
Colour: #1A1A1A

Total credits — "Total Credits: 0 CP"

Font: Inter Regular (weight 400)
Size: 13 px
Line height: AUTO
Colour: #6B7280

Empty state — "No courses planned for this semester yet."

Font: Inter Regular (weight 400)
Size: 14 px
Line height: AUTO
Colour: #6B7280

"Add Course" button label

Font: Inter Semi Bold (weight 600)
Size: 14 px
Line height: AUTO
Colour: #FFFFFF

"Move to Next Semester →" button label

Font: Inter Semi Bold (weight 600)
Size: 14 px
Line height: AUTO
Colour: #FFFFFF

These are the same type styles used for Semester 1 and Semester 2 headings, credits, empty states, and buttons.

Exact measurements

Summer semester spacing & dimensions

Summer column container: 1312 × 325 px

Corner radius: 16 px
Padding: 24 px all sides
Item spacing: 16 px

Title row

Height: 22 px (title text)
Full row width: 1264 px (1312 – 2 × 24 padding)

Total credits text

Position: 24 px below title area (y: 62 within inner)
Height: 16 px

Divider line

Width: 1264 px (full inner width)
Stroke: 1 px #E5E7EB
Position: y: 94 within inner

Empty state area

Height: 81 px
Text centred within area

"Add Course" button

Width: 1264 px (fills inner width)
Height: 37 px
Padding: 10 px vertical, 16 px horizontal
Corner radius: 8 px
Gap (icon to text): 8 px
Plus icon: 14 × 14 px

"Move to Next Semester →" button

Width: 1264 px (fills inner width)
Height: 41 px
Padding: 12 px vertical, 16 px horizontal
Corner radius: 8 px
Gap: 8 px

Key distinctions

Differences from standard semesters

Width

Semester 1 / 2: 644 px each (two-column side-by-side)
Summer: 1312 px (full width, own row)

Label

Semester 1 / 2: "Semester N (Year N)"
Summer: "Summer Semester (Optional)" — includes "(Optional)" suffix

Position in grid

Semester 1 / 2: Horizontal row with 24 px gap between them
Summer: Vertical row below, separated by 24 px gap

Inner content widths

Semester 1 / 2 inner content: 548–596 px
Summer inner content: 1264 px

All other properties (corner radius, padding, typography, colours, button styles, empty state, dividers) are identical to the standard semester columns.

Cannot be determined

Undetermined from approved designs

The following cannot be determined from the approved Figma designs alone:

- Whether Summer Semester appears by default or is toggled/expanded by user action
- Maximum number of courses allowed in Summer Semester
- Whether Summer Semester has a reduced credit point cap vs standard semesters
- Whether Summer Semester courses have different prerequisite or eligibility rules
- Hover, focus, and active states for the Summer column (not shown in static frames)
- Whether Summer is available for all years or only specific years
- Whether the "(Optional)" label changes based on program requirements
- Behaviour when Summer courses conflict with Semester 1 or 2 scheduling

Semester ordering & navigation

Documented semester sequence and navigation/progression behaviour based solely on the approved Figma designs. No invented interactions.

Canonical sequence

Semester ordering

The approved designs establish the following fixed semester order:

Semester 1 → Semester 2 → Summer

Evidence from approved frames:

- "Main StudyPlanner" [3:283] shows Semester 1 and Semester 2 side-by-side in a single row. Summer is not present in this view.
- "Main StudyPlanner Summer Semester" [1:1327] shows all three semesters:
 - Semester 1 (left column, 644 px)
 - Semester 2 (right column, 644 px)
 - Summer Semester (full-width row below, 1312 px)
- Both Semester 1 and Semester 2 contain a "Move to Next Semester →" button, implying forward progression through the sequence.
- Summer Semester is labelled "Summer Semester (Optional)" — positioned last, below the standard pair.

Year grouping

Semester 1 and Semester 2 are labelled with year context: "Semester 1 (Year 1)", "Semester 2 (Year 1)"
Summer Semester label does not include a year suffix in the approved design.

Observed interactions

Navigation and progression

"Move to Next Semester →" button

Present in: Semester 1, Semester 2, and Summer Semester columns
Button style: #2E7D32 background, white text, 8 px radius, 41 px height
Label: "Move to Next Semester →" (Inter Semi Bold 600, 14 px, #FFFFFF)
Position: Bottom of each semester column, below the course list or "Add Course" button

Implied progression based on button placement:
Semester 1 → Semester 2
Semester 2 → Summer (or next year's Semester 1)
Summer → next year's Semester 1

The exact destination of each button press cannot be confirmed from static frames alone.

"Add Course" button

Present in: Every semester column (Semester 1, Semester 2, Summer)
Button style: #E60028 background, white text, 8 px radius, 37 px height
Label: "Add Course" with plus icon (14 × 14 px)
Position: Below the course list or empty state, above "Move to Next Semester →"
Behaviour: "Add Course Inline" frame [3:412] shows an expanded inline course picker appearing within the semester column.

"Remove" button (per course card)

Present on: Each course card
Button style: #FEF2F2 background, #D32F2F text, 6 px radius, 27 px height
Label: "Remove" (Inter Semi Bold 600, 12 px)

Visual states

Semester column states observed

Populated state (Semester 1 in approved frames)
Shows course cards stacked vertically with 16 px gap
"Total Credits: 48 CP" updates to reflect planned courses
"Add Course" and "Move to Next Semester →" buttons appear below course list

Empty state (Semester 2 and Summer in approved frames)
Shows centred message: "No courses planned for this semester yet."
"Total Credits: 0 CP"
"Add Course" and "Move to Next Semester →" buttons appear below empty message

No other states (loading, error, disabled, collapsed) are shown in the approved designs.

Year navigation

Multi-year progression

The approved frames show only Year 1 content:
"Semester 1 (Year 1)" and "Semester 2 (Year 1)"

No frames show Year 2, Year 3, or Year 4 semester layouts. The "Move to Next Semester →" button on the last semester of a year implies progression to the next year, but no design shows:

- How the year changes visually (new row, new page, accordion, tabs)
- Whether years are displayed simultaneously or one at a time
- How the user navigates back to a previous year
- Whether completed years collapse or remain expanded

These are undetermined and must not be invented.

Cannot be determined

Undetermined navigation behaviours

The following navigation and progression behaviours cannot be determined from the approved Figma designs:

- What happens after clicking "Move to Next Semester →" — scroll, transition, or page change
- Whether clicking "Move to Next Semester →" in Summer creates Year 2 Semester 1 automatically
- Whether semesters can be navigated in reverse (no "Previous Semester" button is shown)
- Whether the user can jump directly to a specific semester or year
- Keyboard navigation between semesters
- Whether the "Move to Next Semester →" button is disabled when no courses are planned
- How multi-year plans display (vertically stacked rows, tabs, pagination, etc.)
- Whether Summer Semester is shown by default or must be explicitly added/revealed
- URL routing or deep-linking for specific semesters

Admin Portal specification

Complete layout, spacing, colours, typography, and component specifications for the Admin Portal, extracted from the approved "rmit-admin-page" frame [29:279]. References existing StudyPlanner design guidelines where styles are reused.

Overall structure

Admin Portal layout

Source frame: "rmit-admin-page" [29:279] — 1440 × 1018 px
Layout: VERTICAL auto-layout, no padding, no item spacing
Page background: #FAFAFC

Vertical section stack (top to bottom):

- Brand banner — 1440 × 51 px
- Top navigation bar — 1440 × 57 px
- Actions section — 1440 × 72 px
- Table wrapper — 1440 × 746 px
- Pagination footer — 1440 × 92 px

Total page height: 1018 px
Side margins: 32 px (vs 64 px on the student Planner)

Key difference from StudyPlanner: The Admin Portal uses 32 px side margins throughout, whereas the student-facing Planner uses 64 px.

Top banner bar

Brand banner

Size: 1440 × 51 px
Background: #000054 (RMIT navy — different from the student Planner's #E60028 red banner)
Padding: 14 px vertical, 32 px horizontal
Layout: HORIZONTAL, space-between

Left — Logo section (285 × 23 px)
Logo badge
Size: 47 × 23 px
Contains "RMIT" text: Inter Extra Bold 800, 12 px, #FFFFFF, letter-spacing 0.5 px
Title — "University StudyPlanner Admin"
Font: Inter Semi Bold 600, 15 px, #FFFFFF
Position: 59 px from left of logo section

Right — Subtitle
Text: "Curriculum & Course Mapping Portal"
Font: Inter Regular 400, 12 px, #FFFFFF

Reused from StudyPlanner: RMIT logo badge concept and inter font family. The banner background colour (#000054 navy vs #E60028 red) distinguishes Admin from Student views.

Secondary nav

Top navigation bar

Size: 1440 × 57 px
Background: #FFFFFF
Bottom border: 1 px solid #E2E8F0
Padding: 12 px vertical, 32 px horizontal
Layout: HORIZONTAL, space-between

Left — Program dropdown
Size: 123 × 33 px
Background: #FFFFFF
Border: 1 px solid #E2E8F0
Corner radius: 6 px
Padding: 8 px vertical, 16 px horizontal
Item spacing: 8 px
Text "BP094P23": Inter Semi Bold 600, 14 px, #1A202C
Chevron icon: 10 × 10 px (5 × 3 px vector)

Right — "View Admin History" button
Size: 155 × 32 px
Background: #FFFFFF
Border: 1 px solid #E2E8F0
Corner radius: 6 px
Padding: 8 px vertical, 16 px horizontal
Item spacing: 6 px
Text: Inter Medium 500, 13 px, #4A5568

Note: Admin uses #E2E8F0 for borders (vs #E5E7EB on the student Planner). Both are subtle grey, but the hex values differ.

Search, columns & add course

Actions toolbar

Size: 1440 × 72 px
Padding: 20 px vertical, 32 px horizontal
Layout: HORIZONTAL, space-between

Left group (357 × 32 px, 12 px gap)

Search input
Size: 240 × 32 px
Background: #FFFFFF
Border: 1 px solid #E2E8F0
Corner radius: 6 px
Padding: 8 px vertical, 16 px horizontal
Item spacing: 8 px
Search icon: 14 × 14 px (11 × 11 px vector)
Placeholder text "Search...": Inter Regular 400, 13 px, #718096

Columns selector
Size: 105 × 32 px
Background: #FFFFFF
Border: 1 px solid #E2E8F0
Corner radius: 6 px
Padding: 8 px vertical, 16 px horizontal
Item spacing: 8 px
Text "Columns": Inter Medium 500, 13 px, #1A202C
Chevron icon: 10 × 10 px

Right group

"Add Course" button
Size: 125 × 32 px
Background: #E60028 (reused from StudyPlanner primary CTA)
Corner radius: 6 px
Padding: 8 px vertical, 16 px horizontal
Item spacing: 6 px
Plus icon: 12 × 12 px (7 × 7 px vector), white
Text "Add Course": Inter Semi Bold 600, 13 px, #FFFFFF

Table layout & structure

Data table

Table wrapper
Size: 1440 × 746 px
Padding: 0 px vertical, 32 px horizontal
Contains data-table: 1376 × 746 px

Data table container
Background: #FFFFFF
Border: 1 px solid #E2E8F0
Corner radius: 8 px
Layout: VERTICAL, no spacing

Table header row
Size: 1376 × 48 px
Background: #000054 (matches Admin banner)
Layout: HORIZONTAL

Column widths (left to right):
Checkbox: 48 px
Course Id: 90 px
Course Code: 110 px
Course Title: 180 px
Course Type: 120 px
Sub Type: 140 px
Year: 60 px
Credit Points: 90 px
Web Uri: 140 px
Semester 1: 80 px
Semester 2: 80 px
Flex Term: 80 px
Pre-requisites: 158 px
Total: 1376 px

Header text: Inter Semi Bold 600, 12 px, #FFFFFF
Cell padding: 12 px horizontal, vertically centred

Table body
Size: 1376 × 698 px
Layout: VERTICAL, no spacing
Row heights: 56–104 px (varies with content wrapping)

Data rows
Background: #FFFFFF
Row border: 1 px solid #EDF2F7 (bottom)
Layout: HORIZONTAL

Cell text: Inter Regular 400 to Medium 500, 13 px
Cell padding: 12 px all sides
Text wrapping: Enabled for multi-line cells (Course Title, Sub Type, Pre-requisites)

Course Id text colour: #E60028 (RMIT red, clickable link style)
Course Code text colour: #E60028, Semi Bold 600
General cell text colour: #1A1A1A (standard body text — reused from StudyPlanner)

Action icons per row:
Copy icon: 12 × 12 px (on Course Id cell)
External link icon: 12 × 12 px (on Course Code cell)
Link icon: 12 × 12 px (on Web Uri cell)

Footer & controls

Pagination

Pagination footer
Size: 1440 × 92 px
Padding: 24 px top, 40 px bottom, 32 px left/right
Layout: HORIZONTAL, space-between

Left — Info text
"Showing 1 to 10 of 48 entries"
Font: Inter Regular 400, 13 px, #4A5568

Right — Pagination controls (258 × 28 px)
Layout: HORIZONTAL with 8 px gaps between buttons

"Previous" button
Size: 77 × 28 px
Background: #FFFFFF
Border: 1 px solid #E2E8F0
Corner radius: 6 px
Padding: 6 px vertical, 12 px horizontal
Text: Inter Regular 400, 13 px, #4A5568

Active page button (e.g. "1")
Size: 31 × 28 px
Background: #FDF0F1 (light red tint)
Border: 1 px solid #E60028
Corner radius: 6 px
Padding: 6 px vertical, 12 px horizontal
Text: Inter Semi Bold 600, 13 px, #E60028

Inactive page button (e.g. "2", "3")
Size: 32–33 × 28 px
Background: #FFFFFF
Border: 1 px solid #E2E8F0
Corner radius: 6 px
Padding: 6 px vertical, 12 px horizontal
Text: Inter Regular 400, 13 px, #4A5568

"Next" button
Size: 53 × 28 px
Same style as "Previous" button

Complete colour inventory

Admin Portal colours

Admin-specific colours:
#000054 — Admin banner background + table header background (RMIT navy)
#FAFAFC — Page background
#E2E8F0 — Borders throughout Admin (nav, inputs, table, pagination)
#EDF2F7 — Table row bottom borders
#1A202C — Dark text (nav labels, dropdown values)
#4A5568 — Secondary text (history button, pagination info, nav controls)
#718096 — Placeholder text (search input)
#FDF0F1 — Active pagination page background (light red tint)

Reused from StudyPlanner palette:
#E60028 — Primary CTA (Add Course button), active checkbox, Course Id/Code links, active page text/border
#FFFFFF — Surface background, button text on coloured backgrounds
#1A1A1A — General body text (some table cells)

Note: The Admin Portal uses a slightly different grey palette (#E2E8F0, #EDF2F7, #4A5568, #718096, #1A202C) compared to the student Planner (#E5E7EB, #6B7280, #1A1A1A). These likely come from different Tailwind/grey scales.

Full type inventory

Admin Portal typography

All typography uses Inter. Line heights are AUTO unless noted.

Brand banner
"RMIT": Inter Extra Bold 800, 12 px, #FFFFFF, letter-spacing 0.5 px
"University StudyPlanner Admin": Inter Semi Bold 600, 15 px, #FFFFFF
"Curriculum & Course Mapping Portal": Inter Regular 400, 12 px, #FFFFFF

Navigation
Program code "BP094P23": Inter Semi Bold 600, 14 px, #1A202C
"View Admin History": Inter Medium 500, 13 px, #4A5568

Actions toolbar
Search placeholder "Search...": Inter Regular 400, 13 px, #718096
"Columns" label: Inter Medium 500, 13 px, #1A202C
"Add Course" button: Inter Semi Bold 600, 13 px, #FFFFFF

Table header
All column headers: Inter Semi Bold 600, 12 px, #FFFFFF

Table body cells
Course Id (e.g. "004068"): Inter Medium 500, 13 px, #E60028
Course Code (e.g. "COSC1076"): Inter Semi Bold 600, 13 px, #E60028
General cell text: Inter Regular 400, 13 px (colour varies by cell — #1A1A1A for most, #E60028 for linked values)
Pre-requisites text: Inter Regular 400, 13 px, #1A1A1A (wraps within 134 px)

Pagination
Info text: Inter Regular 400, 13 px, #4A5568
Active page number: Inter Semi Bold 600, 13 px, #E60028
Inactive page / Next: Inter Regular 400, 13 px, #4A5568

Key dimensions

Admin Portal spacing summary

Page-level spacing
Side margins: 32 px (all sections)
Section gap: 0 px (sections stack flush)

Brand banner: 14 px vertical padding, 32 px horizontal
Top nav: 12 px vertical padding, 32 px horizontal
Actions section: 20 px vertical padding, 32 px horizontal
Table wrapper: 0 px vertical padding, 32 px horizontal
Pagination footer: 24 px top, 40 px bottom, 32 px horizontal

Control sizes (consistent across Admin)
Standard control height: 32 px (search, columns, add course, history, program dropdown)
Standard corner radius: 6 px (all controls and pagination buttons)
Standard control padding: 8 px vertical, 16 px horizontal
Standard icon size: 10–14 px

Table dimensions
Data table: 1376 × 746 px (1440 – 2 × 32)
Header row: 48 px tall
Data rows: 56–104 px (variable by content)
Cell padding: 12 px horizontal
Corner radius: 8 px (table container only)

Cross-reference

Shared styles with StudyPlanner

The following tokens and patterns are shared between the Admin Portal and the student-facing StudyPlanner:

Font family: Inter (all weights) — used exclusively in both views
Primary brand colour: #E60028 — CTA buttons, links, active states, checkboxes
Body text colour: #1A1A1A — used for standard text content in both views
Surface white: #FFFFFF — backgrounds, button surfaces
Icon patterns: Chevron-down for dropdowns, plus icon for "Add Course"
Button label style: Inter Semi Bold 600 for all button text

Style differences are documented in the "Admin Portal colours" section above, primarily in background colour (#000054 vs #E60028), grey palette, side margins (32 vs 64 px), and border colours (#E2E8F0 vs #E5E7EB).

Cannot be determined

Undetermined from approved designs

The following cannot be determined from the approved Admin Portal design alone:

- Search behaviour: filtering, debounce timing, which columns are searchable
- "Columns" selector: which columns can be shown/hidden, default state
- "View Admin History" button destination or modal content
- Checkbox selection behaviour: bulk actions available after selecting rows
- "Add Course" button: whether it opens a modal, inline form, or navigates to a new page
- Table sorting: whether columns are sortable (no sort indicators shown)
- Row click/hover behaviour (no hover state shown)
- "Edit" link behaviour (seen on one row only — "COSC1111" row)
- Copy icon and external link icon click behaviour (copy to clipboard? new tab?)
- Whether pagination is server-side or client-side
- Responsive behaviour below 1440 px (not shown)
- Authentication / authorisation model for admin access
- Whether the "Flex Term" column relates to Summer Semester scheduling
- Empty state when no courses match a search query
- Error states for failed data loading
- Maximum entries per page (10 shown, but configurable?)

Admin Portal validation rules

Field-level and action-level validation rules for the Admin Portal "Add Course" and "Edit Course" forms, plus table-level controls. Derived from the approved "rmit-admin-page" frame [29:279] and existing requirements.

Field validation

Field validation

FIELD OR ACTION	VALIDATION RULE	ERROR HANDLING	PRIORITY
Course ID	- Required. - Must be unique. - Must follow the database's accepted ID format.	Show an inline error if empty, incorrectly formatted or already used.	High
Course Code	- Required. - Must use the approved RMIT course-code format. - Must be unique unless requirements explicitly permit duplicates. - Trim leading and trailing spaces.	Show an inline error for missing, invalid or duplicate values.	High
Course Title	- Required. - Must not contain only spaces. - Trim leading and trailing spaces.	Show "Course title is required" when empty.	High
Course Type	- Required. - Must be selected from available predefined options. - Do not accept an unrecognised value.	Show an inline error if no option is selected.	High
Sub Type	- Must use an available predefined option. - If optional, allow the field to remain empty.	Show an inline error only if an unrecognised value is entered.	Medium
Year	- Required. - Must be a valid year level supported by the program. - Do not accept negative numbers, zero or unsupported values.	Show an inline error for missing or invalid values.	High
Credit Points	- Required. - Must be numeric. - Must be greater than zero. - Must use an approved RMIT credit-point value.	Show an inline error for missing or invalid values.	High
Web URL	- Optional unless requirements say otherwise. - If entered, must be a valid URL.	Show an inline error for an invalid URL.	Medium
Semester Availability	- At least one valid teaching period must be selected when availability is required. - Supported options: Semester 1, Semester 2, Flex Term.	Show an inline error if no teaching period is selected when required.	High
Prerequisites	- Optional unless required for the selected course. - Referenced prerequisite course codes must exist. - Prevent a course from being its own prerequisite. - Do not save invalid or broken prerequisite references.	Show an inline error for invalid or self-referencing prerequisites.	High

Action validation

Action validation

FIELD OR ACTION	VALIDATION RULE	ERROR HANDLING	PRIORITY
Add Course	- Validate all required fields before submission. - Keep entered information visible when validation fails. - Display errors beside the relevant fields. - Prevent duplicate submissions while the save request is processing.	- Highlight all invalid fields simultaneously. - Do not clear the form on failure.	High
Edit Course	- Apply the same validation rules used for Add Course. - Preserve the existing record if the update fails.	Restore the previous state if the save fails.	High
Delete / bulk action	- Require confirmation before permanently deleting course records. - Clearly state how many records will be affected. - Do not proceed when no course is selected.	- Show a confirmation dialog before deletion. - Disable the action when selection is empty.	High

Table control

Table control

FIELD OR ACTION	VALIDATION RULE	ERROR HANDLING	PRIORITY
Search	- Allow partial matching for course ID, code and title. - Trim unnecessary spaces. - A search with no results should display a clear empty state, not an error.	Display "No results found" empty state.	Low
Pagination	- Previous must be disabled on the first page. - Next must be disabled on the final page. - The current page must be visually identified.	Disable navigation buttons at boundary pages.	Medium

▲ IMPORTANT — CONFIRMATION REQUIRED

Validation rules derived only from the approved Admin Portal mockup must be confirmed by the BA/client before development. Rules not explicitly stated in the approved requirements are proposed UX safeguards and must not be treated as confirmed business requirements.
